

2016 Renewable Energy Report Card

From the renewable energy generated at Puget Sound Energy-owned wind and hydro power facilities as well as what is purchased from independent power producers, we are on track to meet and exceed the required 9 percent renewable energy target by year-end 2016. The target is based on the average amount of electricity PSE customers used the prior two years.

The costs associated with the generated renewable energy and renewable energy credits are \$27.8 million per year.
