

Electric space heat rebates

Thank you for your commitment to energy efficiency

If you have questions about the rebate application, you can:

1. Contact an Energy Advisor at 1-800-562-1482 Monday through Friday 8 a.m. to 5 p.m.
2. Review rebates qualifications by category at pse.com/rebates
3. Verify your home meets definition of a Single Family Home (see definition pg. 2)

General qualifications

- You must be a current PSE single family residential electric customer. Single-family new construction, multi-family (5 or more attached units) and commercial accounts are not eligible.
- Customers with existing natural gas forced air furnaces or natural gas boilers are not eligible.
- Rebate application must be submitted within 30 days of purchase.
- Rebates only available on new, qualifying equipment.
- Equipment that is replaced under warranty will not be eligible for second rebate.
- One rebate per qualified single-family residence.
- Cannot be combined with any other rebates except where noted.
- Must install to comply with all federal, state and local code requirements.
- Rebate cannot exceed the pre-tax purchase price of any rebated product.
- Equipment installed in manufactured homes must apply on a different rebate application. Please visit pse.com/rebates/manufactured-homes.

Fill out your account, name, address and home information

Account # (where equipment is installed)				Name (check payable to)			
Address (where equipment is installed)				City		State	Zip
Mailing address				City		State	Zip
Email address (customer/account holder)				Phone # (customer/account holder)			
Single family home		Yes	No	Year home was built _____		Install date: _____	
Heating fuel type prior to rebate		Electric	Natural gas	Propane	Wood	Oil	
Heating equipment prior to rebate		Baseboard	Cable	Wall heater	Electric hydronic		
		Heat pump	Ductless heat pump	Forced air furnace	Boiler		
Did your previous heating equipment include A/C?		Yes	No				

Select the rebate product(s) you are applying for and enter product information

Electric home heating (See page 2 for equipment requirements)		
Electric forced-air furnace to air source heat pump conversion (\$1,500)	Zonal electric resistance to ductless heat pump conversion (\$800)	
Product information and AHRI certificate (AHRI for heat pump products only)		
Indoor heat pump model number(s)	Outdoor heat pump model number(s)	AHRI number (if applicable)

Attach a copy of your paid installation invoice and purchase receipt for your installed product(s).

It must include: an installation date, brand, model number(s) of all rebated equipment (including the heat pump, air handler and/or coil model number on the invoice), and amount paid.

Sign the terms and conditions

I acknowledge that the product(s) described above have been purchased and installed at the location indicated. I understand that PSE provides rebate incentives for measures that are designed to save energy but I acknowledge that estimated energy savings are not guaranteed and I understand that PSE has made no express warranties or representations with regard to these products or their installation. I acknowledge that I am responsible for meeting applicable code requirements, determining the adequacy of installation, and paying all amounts owed to contractors/suppliers. Further, I understand that this is a tariffed service and is subject to change or termination without prior notice. PSE reserves the right to inspect any installation prior to rebate approval and/or after rebate payment and I agree to provide PSE reasonable access for such purposes. I authorize PSE to release my customer account information, including my billing and energy usage information, to an independent, third-party evaluator solely for the purposes of evaluating this rebate program, confirming energy savings and for other quality assurance purposes. The disclosure of your private information will comply with PSE's privacy policy and state regulation.

Electric space heat rebates

Thank you for your commitment to energy efficiency

Zonal electric resistance to ductless heat pump conversion

- Your primary and current heating system must be zonal electric resistance to qualify. This includes: baseboard, cable, wall heater, or electric hydronic systems.
- Your new ductless system must be AHRI Certified® as a mini-split heat pump, have a minimum HSPF of 9.0, use inverter technology, and be a minimum of 3/4 ton in heating mode
- At least one Indoor Head must be installed in the main living area of the home; bedroom only installations do not qualify.

Electric forced-air furnace to air source heat pump conversion

- Your primary and current heating system must be electric forced-air to qualify.
- Both traditional and ductless air source heat pump systems qualify.
- Your new traditional heat pump system must be AHRI certified with an HSPF of 8.5 or higher.
- Your new ductless heat pump system must be AHRI Certified® as a mini-split heat pump, have a minimum HSPF of 9.0, use inverter technology, and be a minimum of 3/4 ton in heating mode
- With a ductless system, at least one Indoor Head must be installed in the main living area of the home; bedroom only installations do not qualify.

Single family homes are defined as:

- A) homes built primarily at the location where the home is inhabited;
- B) standalone homes, or attached housing with four units or less.

Additionally, for the purpose of this program, modular homes fall under this classification.

Note that most homes that are not manufactured homes will fall under this classification.
