PSE customer signature	Title	Date
Person / Company completing this form		Application date

Note: New construction projects or sites undergoing a major remodel are not eligible.

Minimum Qualifications*:

Building has \geq 50,000 conditioned square footage OR use significantly more energy than a typical office building (e.g.: 24/7 facility, museum, medical facility).
Projects must add up to at least 15% energy savings through capital projects
Maintenance and/or Facilities staff is available to implement measures or team with Service Provider to do so.
Customer is able to financially & technically implement capital projects within 1 year of signing a grant.
Building is at least 75% occupied
Building use has been stable over the last year, and expected to be for the next 5 years. If not stable, billing history can be adjusted for changes which effect energy use. (Examples include occupancy, schedule, tenant, TI etc.)
Building is separately metered.

*Meeting minimum qualifications does not guarantee participation due to the pilot nature of the program.

Pay for Performance (PFP) Pilot Program Application

List capital savings opportunities (may be submitted on a separate sheet).

Please include details about how savings estimates were developed. Also include a timeline for installation.

Project name	Measure	Est. project cost (\$)	Est. project savings (kWh / therms)	Project description and timeline	Contact name, email and phone

List Service Contract Terms & Costs (if applicable):

Service provider name	Contract duration	Costs

Give basic description of facility

Number of buildings/systems in project, general hours of operation, HVAC type, lighting controls type, use of building, are there a lot of computers used, % of space for server rooms.

List changes in use or equipment in the past year and expected for the next 5 years.

Explain briefly how one would easily adjust for this change in a billing savings analysis.

Audit history

List the last audit date and any relevant opportunities discovered during the audit. These may be comfort issues, air quality, major systems operating when not needed, high usage at night, etc.

Other comments / notes

FOR PSE USE ONLY		
Overall assessment	Proceed with P4P program	Do not proceed with P4P program
Major reasons		

*Meeting minimum qualifications does not guarantee participation due to the pilot nature of the program.
