

Windows rebates

Thank you for your commitment to energy efficiency

If you have questions about the rebate application, you can:

- 1) Review rebates qualifications by category at pse.com/rebates
- 2) Contact an Energy Advisor at **1-800-562-1482** Monday through Friday 8 a.m. to 5 p.m.
- 3) Verify your home meets definition of Single Family. (see definition on page 2)

General qualifications

- Must be a current PSE residential customer.
- Rebate application must be submitted within 30 days of installation.
- You must use PSE electricity or PSE natural gas as the primary source of your home heating.
- Applies to existing single-family properties only. Single-family new construction, multi-family (five or more attached units) and commercial accounts are not eligible. Manufactured home customers should use the Manufactured Home rebate application.
- Rebates only available on new, qualifying equipment.
- Cannot be combined with any other rebates except where noted.
- Must install to comply with all federal, state and local code requirements.
- Products that are replaced under warranty will not be eligible for second rebate.
- Each qualified single-family residence is limited to the lifetime maximum rebate payout.
- Rebate cannot exceed the pre-tax purchase price of any rebated product.

Rebate requirements

- You must have existing single-pane (wood or metal framed) windows or patio doors to qualify for this incentive.
- The high-efficiency windows or patio doors must be installed to replace the existing single-pane (wood or metal framed) windows or patio doors. Existing double-pane windows are not eligible for a rebate.
- Windows must be installed within the conditioned living areas of the home at the time of installation (garages, unconditioned basements, etc. are not eligible).
- These rebates do not apply to new construction or additions that expand your home's square and/or cubic footage.
- The installed windows or patio doors must meet the requirements listed below:
 - Prime windows must have an NFRC rated U-factor of .30 or lower.
 - Patio doors must have an NFRC rated U-factor of .35 or lower.
- Window count is determined by the fenestration (opening) of the replaced windows. Rebate amount is \$50 per window, eligible up to \$750 maximum lifetime rebate payout.
- You must attach the required documents as specified on the application including the final installation invoice, NFRC window stickers or packing slip listing U-Factor, window measurements.

Fill out your account, name, address and home information

Account # (where equipment is installed)		Name (check payable to)		
Address (where equipment is installed)	City	State	Zip	
Mailing address	City	State	Zip	
Email address (customer/account holder)		Phone # (customer/account holder)		
Single family home	Yes No	Year home was built _____	Home is a rental	Install date: _____
Heating fuel at time of installation	Natural gas	Electric	Oil	Propane
Heating equipment at time of installation	Heat pump	Baseboard	Forced-air furnace	Boiler Other _____
Self-installation	Contractor-Installed	Name of Contractor (if applicable) _____		

Select your pre-existing window type and enter product information (select only one).

Pre-existing window type	Incentive available	Rebate value
Single-pane windows	ENERGY STAR windows with a U-factor of .30 or lower	\$50 per window, up to \$750 total
Double-pane windows	None / Does not qualify	
Please count all qualifying windows and patio doors that were replaced and installed in the home.		
How many qualifying windows/patio doors were upgraded and installed in conditioned living space? What is their total square footage?		
Windows _____ Doors _____ Square feet _____		

Attach required documentation - if the below items are not received with your application, rebate processing will be delayed.

- A paid installation invoice or purchase receipt* reflecting the cost and amount all of windows installed.
- A copy of your packing slip, or copies of your National Fenestration Rating Council (NFRC) stickers, that show the U-factor for each individual window.
- The measurement and type of each window or door being upgraded.

* Packing slips, contracts, scopes of work, and purchase orders do not qualify as an installation invoice or purchase receipt. The same invoice can be submitted for multiple rebates across all available categories, where applicable.

Incentives for home with existing single-pane windows

ENERGY STAR windows with U-factor of .30 or lower

Note: Only homes with existing single-pane windows qualify for this ENERGY STAR window incentive.

Single family homes are defined as:
A) homes built primarily at the location where the home is inhabited;
B) standalone homes, or attached housing with four units or less.
Additionally, for the purpose of this program, modular homes fall under this classification. **Note that most homes that are not manufactured homes will fall under this classification.**
